Nate Lumpkin
Software Developer

P. 510-502-6086   nate.lumpkin@gmail.com   LinkedIn   Github   San Francisco / Bay Area

SKILLS

Python, Javascript, React.js, CSS3, HTML5, Flask, Redux, Alembic, SQLAlchemy, Express.js, Sequelize, SQL, PostgreSQL, Sqlite3, Git, Node.js, OOP, TTD, REST, Docker, SCRUM, Agile, Kanban

PROJECTS

CRUD Overgrowth   Live Site | Github

A stateful, full stack web application clone of Stack Overflow with a Flask backend and ReactJs frontend
- Utilized DraftJs to implement Rich Text Editing allowing for users to achieve greater customization in feature interaction
- Created a series of datetime conversion functions to give users precise and understandable information about exactly when a given post was created and updated
- Hid front-end state change during page transitions, providing a smooth and visually appealing loading experience

Scuttlr   Live Site | Github

A full stack web application designed as part of a small group of developers to mimic the capabilities of Tumblr
- Researched and implemented the ReactJS video player package to allow users to upload a variety of video URLs
- Designed and styled the Posts, Followers, and Likes frontend display features, giving users a dynamic and interactive experience with each other and their posts
- Collaborated with a teammate to use SQLAlchemy's eager-loading functions to optimize database querying from the backend

NateBnB   Live Site | Github

An AirBnB clone with an Express backend and ReactJS frontend
- Implemented a series of modals to display user Reviews to give users an uninterrupted experience
- Closely styled each form to match the AirBnB house style, with rounded corners and embedded labels
- Created custom error handling on the backend to provide users customized feedback for their field inputs

EXPERIENCE

Barista/Lab Assistant

The Crown Oakland, Oct 2019 - Mar 2022
- Designed a series of seasonal beverages for the 2021 market, including recipe design, presentation, bar flow, and web copy, increasing customer engagement
- Analyzed weekly green coffee imports on a number of metrics from physical measurements to brew guides and wrote copy for web diagrams and analysis, increasing sales over a two year period by 100% .
- Wrote a series of web articles on home brewing cold coffee, which received positive customer feedback

Residential Counselor

Progress Foundation, Jan 2014 - May 2017
- Performed intake procedures with highly vulnerable clients newly out of crisis, increasing client stability and overall safety
- Led group therapy classes on treatment self reflection and goal setting, helping to increase client retention and improve positive outcomes
- Guided clients through developing practical self care skills, in order to increase stability and wellbeing and improve environment safety

EDUCATION

App Academy - 6 month, 1000 hour immersive software development course with focus on full stack web development (Winter 2022)

University North Carolina @ Chapel Hill - *BA - Mandarin Chinese - Minor Focus and Honors Thesis in Creative Writing* (Spring 2010)
